

Conclusion

Applicant has responded to all rejections by amending the claims to clarify that the arm sections of the Applicant's inventions are composed of the soft cushion pad to provide cushioning for patients' arms. The references cited by the Examiner neither singly nor in combination anticipate nor render obvious the Applicant's invention. For these reasons it is respectfully suggested that all claims are in a condition for allowance. Thank you very much for your immediate attention to this.

This the 28 day of April, 2005.
